PETITION AGAINST NATIONAL GRID'S PROPOSED PYLONS ACROSS THE SOMERSET COUNTRYSIDE

"We, the undersigned, call on the Government to stop the National Grid's flawed consultation which will bring the blight of 152 ft high pylons across our beautiful unspoiled Somerset countryside. We accept electricity transmission is essential, but National Grid is bullying us into stating a preference for either one of two unacceptable routes, chosen by National Grid solely only on the basis of cost, to the exclusion of other viable options such as the Bristol Channel or M5 corridor."
